For students enrolled or intending to enroll in the School of Architecture and Planning, this learning community is housed in Goodyear Hall on the Main Street Campus. Students enjoy connecting with their peers where they live, as well as in class and studio. This community provides extracurricular activities that fit their architecture schedule and provides opportunities for peer critique of class work and to develop relationships with upperclassmen architecture students.

This is a great community for students enrolled or intending to enroll in any of the 7 departments within the School of Engineering and Applied Sciences. The Engineering FYi is housed in the Ellicott Complex. This community provides opportunities to make connections with professionals in the school of engineering, study with classmates, develop skills in team dynamics, and make connections between their studies and events in the residence halls.

This community is for students enrolled or intending to enroll in pharmacy, pharmaceutical sciences, pharmacology and toxicology, etc. Housed in the Ellicott Complex, this community provides opportunities for students to establish study groups, explore trending advances in the field, and build connections with faculty and peers.

This learning community is for students enrolled or intending to enroll in a variety of health-related fields such as pre-med, exercise science, and nursing. Housed in the Ellicott Complex, this community provides opportunities to establish study groups, networking and exploring co-curricular experiences in their field of choice. Come live with those who share your passion for learning and helping others, while working together in common subject areas such as chemistry and biology.

This is a great community for students enrolled or intending to enroll in the School of Management. This community is housed in the Ellicott Complex and provides opportunities to support each other through prerequisite courses such as economics and accounting. Additionally, the Management FYi assists students in identifying extracurricular activities to enhance their area of interest.

For students enrolled or intending to enroll in the College of Arts and Sciences, the Social Sciences community is one of our most diverse areas. Housed in the Ellicott Complex, students will have the opportunity to explore majors and careers in the humanities, the arts and the sciences, as well as make connections with other students.

FYI learning communities provide first-year students the opportunity to live among other students with similar academic interests and have an Academic Assistant that lives in the FYI area who provides programs, tutoring, and events specifically designed for their area of academic interest. The FYI communities are: Architecture, Engineering, Pharmacy, Health Professions, Management, and Social Sciences. For more information, see the reverse side and visit housing.buffalo.edu/special.

Global 360 is our newest interest community, which opened in August 2015. This program explores and celebrates issues of intercultural and international interest through events, dialogue, and local trips. In this community, students explore cultures different from their own, engage in cultural events on and off campus, and create connections with students and faculty from across the world. This community is housed in Clement Hall. For more information, email: cbragdon@buffalo.edu.

Leadership House is a unique program that teaches first year students about leadership & community engagement through participation in a living-learning community. This community is designed to shape students' academic and social experience, and enhance personal development by building a community through curricular and co-curricular experiences. This selective community is run through the Office of Student Engagement and is housed in the Governors Complex. For more information, please visit the program website at student-affairs.buffalo.edu/leadership/living.

The Academies connect students to a community of supportive faculty, staff and peers enhancing the UB experience through interdependent programs and services tailored to students’ interests and studies through the themes of Civic Engagement, Entrepreneurship, Global Perspectives, Sustainability, or Research Exploration. Students attend fun programs, participate in service, and work on research projects together! Academic Assistants live in this area and provide additional support for these students. It is located in the Governors Complex. For more information, visit the program website at academies.buffalo.edu/

University Honors College students have the opportunity to live and study in an environment that facilitates advanced independent learning. Services include special seminar courses, faculty mentors, undergraduate research and creative activities. The First Year Honors community is located in Governors Complex. Students in this community must be accepted in the Honors College, although honors housing is not required of honors students. For more information, please visit the program website at honors.buffalo.edu.

Students in the Daniel Acker Scholar program have the opportunity to receive services including individualized advisement and counseling services, research skills courses, tutoring and community service activities. Students must be accepted in the Daniel Acker Scholar program to be eligible for housing in the first-year Acker Scholar area, which is located in the Governors Complex. First-year Acker Scholars are required to live in this area. Academic Assistants live in this area and provide additional support for these students. For more information, visit the program website at cads.buffalo.edu/acker.

Students in the Educational Opportunity Program (EOP) have the opportunity to live in an environment that facilitates community, academic achievement, and engagement. Students in the EOP Program receive services such as individualized advisement and counseling, workshops, programming, tutoring, and community service activities. Students in this community also have the opportunity to work with a faculty mentor. Students must be accepted in the Educational Opportunity Program to be eligible for housing in the first-year EOP area, which is located in the Governors Complex. For more information, please visit the program website at cpmc.buffalo.edu/eop/index.php.
